Component 4: Problematic Socio-Sexual Behaviours Checklist

Component 4 of the Assessment of Sexual Knowledge examines problematic socio-sexual behaviours. For the purpose of this assessment, these behaviours have been defined as:

- inappropriate socio-sexual behaviours
- unusual socio-sexual behaviours
- behaviours that may be precursors of sexual offending
- behaviours that potentially involve the criminal justice system

Component 4 is to be completed by the carer or case worker of a person who has been said to exhibit problems of a psycho-sexual nature. There is no attempt to classify these behaviours; instead, a 'holistic' approach is taken to assist in determining the most appropriate specialist referral service.
